WORK EXPERIENCE

Blockchain SDE-II TechAlchemy

06/2023 - Present

Hybrid, Pune India

Achievements/Tasks

- Leading a team creating a whole ecosystem including a gas-less layer 2 Blockchain with polygon CDK.
- Hands-on experience on Go-lang for custom changes in polygon cdk's code.
- Extensive research on Geth code for understanding EVM and consensus mechanisms.
- Worked on multiple Interoperability contracts for bridges.
- Worked on creating layer 1 blockchain with Geth with custom changes in clique, parilla and other consensus as per the requirements

Blockchain Team Lead MobiLoitte Technologies

06/2022 - 05/2023

pune, india

MobiLoitte is Premier Blockchain & Metaverse Software Development

Achievements/Tasks

- Led a team of five junior Developers .
- Delivered project on time and Rewarded .
- Handling client meetings as technical associate.
- Learning to Build Architecture of DApps and DeFi
- Worked on multiple scalable Web3 applications.

Blockchain Integration Expert ASVA LABS

11/2021 - 05/2022

WFH

Asva Labs is a Web3 and metaverse company that strives to build innovative products that drive the adoption of decentralized economies

Tasks

- Built smart contract in solidity with standard protocols of Defi.
- Web3 integration to front-end.
- Exposure to Defi protocol.

Blockchain DEV Rapid Innovations

06/2021 - 10/2021

WFH

Tasks

- Learned fundamentals of the blockchain.
- Hands on experience on solidity.
- Writing test cases on Hardhat .

SKILLS

Solidity

EIPS

web3.js

Hardhat

React.js

GoLang

Gasless tx

IDO

Polygon CDK

NFT Marketplace

Defi Exchange

PROJECTS

X-chain Blockchain Ecosystem (Gas less)

- Created a "gas free" EVM blockchain , a layer 2 with Polygon CDK.
- Deployed NFT marketplace for gaming for client.

DexWin.Bet

- smart contract creation for consensus odds from sportsdata.io
- web3 integration , gasless betting tx , swing cross chain

Uniswap v2 Clone

- a fully functional clone of uniswap with interactive ui and can be used for custom tokens.

ACHIEVEMENTS

Sprint winner of MobiLoitte (07/2022 - 10/2022)

Delivered Full Betting Application under timeline

Awarded TA of the month (2021)

achieved 96% of the monthly target with over 14 doubts a week

Winner of Technical Trophy of utkarsh.(2020)

various technical competition like robo race , coding and robo wars.

Technical Head of ENIGMA (2021 - Present)

Enigma is official Technical community of BBDEC

LANGUAGES

Solidity

Full Professional Proficiency

Go Lang

Professional Working Proficiency

React.js

Limited Working Proficiency

Express js

Limited Working Proficiency

INTERESTS

Want to work and learn in a collaborative work environment and put my skills to the test to enhance them, also exploring new paradigms of web3 .
